WORK EXPERIENCE

VIALMA

Senior Data Analyst

Nov 2021 - Present

- Identified and validated the **North-Star metric** of the business, and built KPIs around it to track growth.
- Implemented **dbt** (data build tool), took ownership of and completed documentation of existing data using dbt, and built, tested, and maintained data models based on raw company data in dbt.
- **Reduced** data infrastructure spending by **95%** by migrating the platform from a fully managed solution to the Google Cloud Platform (BigQuery) and Stitch.
- Reconciled payments between Stripe and our in-house CRM system. Identified and implemented measures to improve data integrity, reduce payment duplication, and minimize **passive churn by 20%**.
- Increased customer subscription rates by developing an onboarding funnel and conducting an analysis of drop-off and quit rates for each step to identify key friction steps in the onboarding flow.

NEARBY TECHNOLOGIES PRIVATE LIMITED, Mumbai, India

Data Analyst, Analytics

Jul 2020– Nov 2021

- Collaborated with co-founders to define and utilize metrics like churn, acquisition, conversion, and retention for generating insights to be presented in an investor deck during a Series A fundraising round.
- Reduced **fraudulent activity** by 90% by creating a rule-based system to detect fraudulent transactions and identify agents who were involved in them.
- Increased sales by informing the sales team about segments to prioritize (who is high potential) by performing customer segmentation to figure out the distributors with below-average product sales.

FREELANCER

Data Analytics and Engineering

Oct-2020 - Feb 2022

- Analyzed trends in customer demographics, using segmentation, and transactional behaviour to increase the sales of the company by 8-10%.
- Coordinated with and worked together with stakeholders to set up the data stack. Led vendor research, selection, and trial period of various analytics tools.
- **Reduced data infrastructure cost** by 30-40% by correctly identifying and migrating to the right tools for the size of the operations and required tasks.
- Defined metrics and build reports to figure out CAC, LTV, churn, conversion rate, onboarding funnel, marketing attribution, analyze marketing spent etc.

HANSA CEQUITY, Mumbai, India

Associate Analyst, Technology Solutions

Jul 2018 – Jul 2020

- Increased sales by more than **15 million rupees** (Equiv. 200K USD) by implementing customer segmentation based on avg. basket price, and analyzing purchasing behavior for customized campaigns.
- **Decreased** data loading time by **2 hours** via implementing an ETL project using SSIS, streamlining data extraction, and transformation to the Data Warehouse checkpoint and onward to the data marts.

TECHNICAL SKILLS

- **Programming Languages:** SQL, Python, bash, R, C.
- **Tools and Packages:** dbt, BigQuery, Redshift, Mixpanel, Airflow, PowerBI, GCP, AWS, Git, Cron.

CERTIFICATIONS & ACHIEVEMENTS

- [Analytics Engineering with dbt](#), via co: rise, Nov 2021
- **Hawkeye Award**, given among 400 employees for improving the data pipeline by reducing the data loading time by up to 30% at Hansa Cequity, 2020.
- **Second Prize**, for Best Final Year Project among 100 projects in Sardar Patel Institute Of Technology, 2018.

EDUCATION

- **Bachelor Of Engineering, Computer Science**, Mumbai University Aug 2014– May 2018
